Appendix A: NEW ZEALAND KING SALMON INVESTMENTS LIMITED CODE OF ETHICS

The Code of Ethics is the framework of standards by which the directors, employees, contractors for personal services and advisers of New Zealand King Salmon Investments Limited (the Company) and its subsidiaries (together, the Group) are expected to conduct their professional lives and has been approved by the Board. This Code is not intended to prescribe an exhaustive list of acceptable and non-acceptable behaviour; rather it is intended to facilitate decisions that are consistent with the Company's values, business goals and legal and policy obligations, thereby enhancing performance outcomes. Group employees must familiarise themselves with the Company's values, as they govern their behaviour while they are employed by the Group.

Directors, senior managers and other employees who are proven to have breached this Code of Ethics will face disciplinary action which, depending on the seriousness and severity of the breach, could include dismissal or legal action or both.

The Company's directors and senior managers are expected to lead according to these standards of ethical and professional conduct and to ensure that they are communicated to the people who report to them.

If you have any questions or concerns about an ethical question, or become aware of a breach of a legal obligation or a Group Policy, let the Chairman of the Board know as soon as possible. If this is not appropriate, contact the Chairman of the Audit and Finance Committee. (Please refer to Article 10, Reporting Concerns, for more information.)

Conflicts of Interest

A conflict of interest occurs when an individual's interests interfere, or appear to interfere, with the Company's interests. The Company expects the Group's people to act in the Company's interests at all times.

The Group's employees will not without the prior consent of a manager duly authorised within the Group:

- a. engage in any other business or commercial activities which would conflict with their ability to perform their duties to the Group;
- b. support a political party or organisation other than in a personal capacity; and
- c. engage in any other activity which could conflict with the Group's interests.

Where a conflict of interest arises which may conflict with an employee's or director's ability to act in accordance with the Group's interests, that conflict should be promptly declared (to a manager in the case of an employee, and to the Chair in the case of a director).

Gifts

"Gifts" and "personal benefits" can include accommodation, goods, services, discounts and special terms on loans and so on.

The Group's people will not accept gifts or personal benefits of any value from external parties if it could be perceived that such acceptance might compromise or influence any decision by the Group.

- c. compete with the Group; and
- d. trade in shares of the Company, or any other kind of property, based on information that comes from their roles within the Group if that information has not been reported publicly (please refer to the Code of Conduct for Financial Products Trading for more information).

Confidentiality

The Group's stakeholders entrust the Group daily with their confidential communications and information. Confidential information includes all information not in the public domain that has come to an employee's knowledge by virtue of working for the Group.

The Group's employees will maintain and protect the confidentiality of information entrusted to the Group about work colleagues, stakeholders and the Group's business and financial affairs, except where disclosure is allowed by the Group or is required by law.

Behaviours

The actions and statements of employees, whether to customers, suppliers, competitors, or other employees, can impact on the way people see the Group and whether they choose to do business with us.

The Group's employees will:

- a. undertake their duties in accordance with the Company's values;
- b. conduct themselves in a way that demonstrates that their honesty and integrity is beyond question and will not behave in a manner that has the potential to bring the Group's image into disrepute;
- c. deal honestly with the Group's other staff, professional advisors and stakeholders;
- d. not enter into transactions or make promises on behalf of the Group that the Group cannot or does not intend to honour;
- e. undertake their duties with care and diligence and in the best interests of the Group and the Company's shareholders;
- f. ensure that any personal opinions they express are clearly identified as their own and are not represented to be the views of the Group;
- g. value individuals' differences and treat people in the workplace with respect in accordance with the Group's philosophies of equal employment opportunities, and anti-harassment and discrimination policies;
- h. to the best of their ability, use reasonable endeavours to ensure that the Group's records and documents, including financial reports, are true, correct and conform to the Group's reporting standards and internal controls; and
- i. not accept or offer bribes or improper inducements to or from anyone.

Proper use of Group Assets and Information

The Group's employees have a duty to protect Group assets from loss, damage, misuse, waste and theft. Group assets include systems, information, intellectual property and networks.

The Group's employees will:

- a. only act within the delegated authority framework and any authority that may be specifically given to them as a delegated authority holder; and

- e. have an awareness of special strategic, industry, cultural and other issues that may impact on the Group's business.

Reporting Concerns and “Whistleblower” Protection

If employees become aware of a breach of the Code of Ethics or any breach of a legal obligation or Group policy, employees are responsible for reporting it to their manager or the Board, as appropriate. If employees do not feel comfortable reporting it to their manager or the Board in the circumstances, employees should report the breach to the:

- a. Chairman of the Board; or
- b. Chairman of the Audit and Finance Committee.

The Group will stand behind any employee who, acting in good faith, reports a breach, serious problem or wrongdoing. If employees make a report, their identity will be kept confidential where possible – there may be situations however where the proper investigation of the matter inadvertently identifies their identity or requires their identification.

The Group requires all Directors, senior managers and other employees who receive, a report of an actual or suspected violation of this Code of Ethics to take all reasonable steps within their control to ensure that:

- a. the behaviour alleged in the report is thoroughly investigated;
- b. the rules of natural justice are observed in that investigation; and
- c. appropriate disciplinary action is taken if the allegation is substantiated.

Any person who knowingly makes a false report of a legal or policy breach may be subject to disciplinary action.

If employees suspect that a breach of the delegated authority rules or limits has occurred employees should advise your manager and the delegated authority holder whose responsibility it should have been to approve the transaction, as soon as possible.

Review

Appendix B: FINANCIAL PRODUCTS TRADING POLICY AND GUIDELINES

This policy applies to all Directors, officers, employees, contractors and advisers (restricted persons) of New Zealand King Salmon Investments Limited (the Company) and its subsidiaries who intend to trade in the Company's quoted financial products. In this policy 'trade' includes acquiring or disposing of quoted financial products, or agreeing to do so, whether as principal or agent.

In addition to this Policy and Guidelines, further more specific and stringent rules also apply to trading in the Company's quoted financial products by Directors and certain employees (see Additional Trading Restrictions for Restricted Persons).

Insider trading is illegal in New Zealand. Restricted Persons must comply with New Zealand law and with this Policy.

In this Policy "trade" is a broad concept and includes buying or selling securities or agreeing to do so, and granting lenders rights over listed or unlisted securities, or agreeing to do so, whether as principal or agent.

Trading may only be undertaken at certain times of the year – see Trading windows.

Introduction and purpose

This document details the Company's policy on, and rules for dealing in the following financial products (**Restricted Financial Products**):

- a. the Company's ordinary shares (NZX trading code "NZK");
- b. any other quoted financial products of the Company or its subsidiaries from time to time; and
- c. any derivatives in respect of such quoted financial products, from time to time.

The requirements imposed by the policy are separate from, and in addition to, the legal prohibitions on insider trading in New Zealand and any other country where those financial products may be listed.

If Restricted Persons do not understand any part of this policy, or how it applies to them, Restricted Persons should raise the matter with the Company Secretary before dealing with any financial products covered by this policy.

Application of this policy to other persons

The rules contained in this Policy apply to Group employees and also to:

- a. a Group employees spouse or dependent children;
- b. a company in which a Group employee has a material interest, or is a director, and can influence the decision of that company in the investment of funds;
- c. a trust or a managed fund when either the Group employee has a beneficial interest, or is a trustee or manager, and can influence the decision of that trust or managed fund in the investment of funds; and
- d. anyone else notified by the Chief Financial Officer (CFO) from time to time.

Additional trading restrictions apply to all Directors and employees of the Group and its subsidiary companies; and trusts and companies controlled by such persons. **See Additional trading restrictions for Restricted Persons.**

The prohibitions apply regardless of how Restricted Persons learn of the information, and regardless of why they are trading.

The prohibition on insider trading applies not only to information concerning the Company's financial products. If a person has material information in relation to listed securities of another issuer (including futures contracts listed on an authorised futures exchange) over listed securities, that person must not trade in those securities, advise or encourage others to trade or hold those securities or pass on the information to others.

Fundamental Rule – Insider trading is prohibited at all times

If Restricted Persons have any **material information**, it is illegal for them to:

- a. trade the Company's Restricted Securities;
- b. advise or encourage another person to trade or hold the Company's Restricted Securities;

- c. advise or encourage a person to advise or encourage another person to trade or hold the Company's Restricted Securities; or
- d. pass on the material information to anyone else – including colleagues, family or friends – knowing (or where Restricted Persons ought to have known) that the other person will use that information to trade or advise or encourage someone else to trade, or hold, the Company's Restricted Securities.

This offence, called “insider trading”, can subject Restricted Persons to criminal liability including large fines and/or imprisonment, and civil liability, which may include being sued by another party or the Company, for any loss suffered as a result of illegal trading.

Confidential information

In addition to the above, Restricted Persons also have a duty of confidentiality to the Company. Restricted Persons must not reveal any confidential information concerning the Company to a third party (unless that third party has signed a confidentiality agreement with the Company and they have been authorised to disclose the confidential information), or to use confidential information in any way which may injure or cause loss to the Company, or use confidential information to gain an advantage for them. Restricted Persons should ensure that external advisers keep Company information confidential.

What is “material information”?

“Material information” is information that:

- a. is not generally available to the market;
- b. a reasonable person would expect, if it were generally available to the market, to have a material effect on the price of the Company's quoted financial products; and
- c. relates to particular financial products, a particular listed issuer, or particular listed issuers, rather than to financial products generally or listed issuers generally.

Information is generally available to the market if it has been released as an NZX or ASX announcement, or investors that commonly invest in financial products of a kind the price of which might reasonably be expected to be affected by the information (such as the Company's quoted financial products) can readily obtain the information (whether by observation, use of expertise, purchase or other means).

It does not matter how Restricted Persons come to know the material information (including whether Restricted Persons learn it in the course of carrying out their responsibilities, or in passing in the corridor, or in a lift, or at a social function).

Information includes rumours, matters of supposition, intentions of a person (including the Company), and information, which is insufficiently definite to warrant disclosure to the public.

In order to minimise the risk of insider trading, the Company must immediately disclose to the market Material Information that is not otherwise excluded from disclosure, as set out in the Company's Shareholder Communications and Market Disclosure Policy.

What are some examples of material information?

The following list is illustrative only. Material information could include information concerning:

- a. the financial performance of the Company;
- b. a possible change in the strategic direction of the Company;
- c. the introduction of an important new product or service;
- d. a possible acquisition or sale of any assets or company by the Company;
- e. entry into or the likely entry into or termination or likely termination of material contracts or other business arrangements which are not publicly known;
- f. a possible change in the Company's capital structure;
- g. a change in the historical pattern of dividends;
- h. senior management changes;
- i. a material legal claim by or against the Company; or
- j. any other unexpected liability,

which has not been released to the market.

The range of possible Material Information is very wide, so if Restricted Persons are planning to buy or sell any of the Company's Restricted Securities and they have any doubts regarding whether information may be Material Information, they should discuss it confidentially with the CFO

Exceptions to this policy

This policy does not apply to:

- a. acquisitions and disposals by gift or inheritance;
- b. acquisitions through an issue of new quoted financial products, such as an issue of new shares on the exercise of options, under a rights issue, a dividend reinvestment plan or a share purchase plan; or
- c. trading of quoted financial products where the trading results in no change to the beneficial interest in those quoted financial products.

Group employees must notify the CFO prior to transferring Restricted Securities under any of these exceptions and, if requested, provide documentation to support the transfer.

Short term trading discouraged

Restricted Persons should not engage in short term trading (the buying or selling of listed securities within a 6 month period), unless there are exceptional circumstances discussed with and approved by the Company Secretary.

Short term trading can be a key indicator of insider trading, particularly if undertaken on a regular basis or in large amounts. Therefore, to reduce the risk of an allegation of insider trading, do not trade Restricted Financial Products on a short-term basis.

If in doubt, don't trade

The rules contained in this policy do not replace Restricted Persons legal obligations. The boundary between what is (and is not) in breach of the law is not always clear. Sometimes behaviour that Restricted Persons consider to be ethical actually may be insider trading. If in doubt, don't trade!

Consent requirements before trading

Before trading in Restricted Securities, at any time, Group employees must, in writing:

- a. notify the Company's CFO of their intention to trade in Restricted Securities, and seek consent to do so (using the Request for Consent to Trade in Securities form attached);
- b. confirm that they do not hold material information; and
- c. confirm that there is no known reason to prohibit trading in any Restricted Securities.

A consent is only valid for a period of 10 trading days after notification by the CFO that the application has been approved. A consent is automatically deemed to be withdrawn if the applicant becomes aware of Material Information prior to trading.

Do not undertake a trade before the consent is received.

Requirements after trading

A Group employee must:

- a. advise the CFO promptly following completion of any trade, confirm the trade has occurred and provide a copy of the contract note (or other transaction documentation, in the case of an off-market trade) within 10 working days; and
- b. comply with any disclosure obligations he or she has under the Financial Markets Conduct Act or Financial Markets Conduct Regulations.

Additional trading restrictions for Directors and senior managers

The additional trading restrictions set out below apply to:

- a. all Directors and senior managers of the Company and its subsidiary companies; and
- b. trusts and companies controlled by such persons.

Persons covered by these additional restrictions are called "Insiders". Employees and directors will be considered responsible for the actions of trusts and companies controlled by them. In this respect,

“control” is not to be construed in a technical way but by looking at how decisions are made in practice.

Additional trading restrictions for Insiders (black-out period)

Insiders are prohibited from trading in any Restricted Securities during the following specific “black-out” periods:

- a. from the Company's half-year balance date, until the first trading day after the half-year results are released to NZX; and
- b. from the Company's year-end balance date, until the first trading day after the full-year results are released to NZX.

Insiders are not permitted to trade any Restricted Securities during a black-out period unless the Company's Board provides a specific exemption. Periods that are not a black-out period are called a Trading Window.

Please note that if Insiders hold material information they must not trade Restricted Securities at any time – regardless of these periods.

Requirements before trading for Insiders

Before trading in Restricted Securities, at any time, Restricted Persons must, in writing:

- a. notify the Company's CFO of their intention to trade in securities, and seek consent to do so (using the Request for Consent to Trade in Listed Securities form attached);
- b. confirm that they do not hold material information; and
- c. confirm that there is no known reason to prohibit trading in any Restricted Securities.

A consent is only valid for a period of 15 trading days after notification. A consent is automatically deemed to be withdrawn if the person becomes aware of material information prior to trading.

Requirements after trading for Insiders

An Insider must advise the Company's CFO promptly following completion of any trading in any Restricted Securities, and the Insider must comply with any disclosure obligations it has under Subpart 6 of Part 5 of the Financial Markets Conduct Act 2013 and Subpart 3 of Part 5 of the Financial Market Conduct Regulations 2014.

These obligations continue for a six month period following a Director, the CEO and all senior officers (all CEO direct reports) ceasing to hold an office or employment with the Company.

Reports of all trades carried out by Insiders are provided to the Board at each meeting.

Breaches of policy

Strict compliance with this policy is a condition of employment and of engagement of advisers. Breaches of this policy will be subject to disciplinary action, which may include termination of employment or a contract for services.

Monitoring of trading

The Company may monitor the trading of directors, employees and advisers as part of the administration of this policy.

The Financial Markets Authority, NZX and governance advisers take an interest in whether the Company is complying with its Securities Trading Policy and how it ensures it does so.

Application of policy

The Board of the Company has approved this policy. The Board may approve updates, amendments to and exemptions to this policy from time to time, which may be implemented by written notice to restricted persons and Insiders.

To the extent of any inconsistency with any previous policy or rules relating to this subject matter, this policy prevails over them.

This Policy is not intended to be legal advice and is not a substitute for legal advice. If a Team Member has any doubt about whether they may trade in Restricted Securities they should consult a legal adviser.

Review

This Policy will be reviewed at least every two years to ensure it meets best practice standards and meets the needs of the Company.

All candidates are evaluated against a detailed Job Description which clearly outlines the tasks involved, and the skills, attributes and qualifications required. This aims to reduce unconscious bias during the recruitment process, by providing a merit-based structure to follow.

Performance Appraisal

Our annual performance review cycle provides an opportunity for team members to focus on key achievements, and in conjunction with their Managers set Key Performance Indicators which align to our company strategy. This allows unbiased feedback on individual performance, mitigating the risk of unconscious bias through our review process.

In addition to required skills and measurable outcomes, we also place a high importance on the behaviours of our team members. We encourage and reward those exhibiting with the behaviours outlined by our Way we Work philosophy, which places emphasis on value and respect for all.

Development

Our commitment to the continuous development of our team ensures NZKS has individuals with the right skills in the right role. This also provides an equitable opportunity for career advancement to all team members.

Remuneration

NZKS uses the Strategic Pay 10 factor system to evaluate all salaried positions. This provides an objective structure for salary banding which focuses on key components of roles within our organisation. From this a salary range is established, which allows movement within each band on a merit-based system.

Harassment and Discrimination Policy

Our Harassment and Discrimination Policy outlines our commitment to providing a safe, inclusive environment. The aim is to ensure all team members understand the impact words and actions can have on others, that they feel free from harassment or discrimination while at work, and also are comfortable and supported raising issues of this nature should they arise.

Recognising the changing face of our workforce means also looking at how we can move from traditional work patterns to those which accommodate our diverse team. Amendments to the Employment Relations Act (2007) outline the requirements of employers to consider all requests for

flexible working arrangements. From a business perspective. Offering flexible work arrangements can assist with retention of key team members when personal circumstances change. Appendix I: EXTERNAL AUDITOR INDEPENDENCE POLICY

Introduction

This is a Board approved governance policy. The approach to corporate governance in New Zealand King Salmon Investments Limited (“the Company”) is set out in the Board and Board Committee charters and related documents.

Policy statement

The objective of this policy is to ensure that audit independence is maintained, both in fact and appearance, such that the Company’s external financial reporting is viewed as being highly reliable and credible.

Background

Oversight of the Company’s external audit arrangements is the responsibility of the Company’s Audit and Finance Committee. Ensuring that external audit independence is maintained is one of the key aspects in discharging this responsibility. This formal External Auditor Independence Policy has been adopted by the Committee to meet this requirement.

- a. The policy covers the following areas
- b. Approval of external auditor;
- c. Provision of other assurance services by the Company’s external auditors;
- d. Pre-approval process;
- e. External auditor rotation;
- f. The hiring of staff from the external audit firm; and
- g. Relationships between the external auditor and the Company.

Approval of external auditor

The Audit and Finance Committee shall only recommend to the Board an external audit firm if that firm:

- a. would be regarded by a reasonable investor with full knowledge of all relevant facts and circumstances as capable of exercising objective and impartial judgement on all issues encompassed within the auditor’s engagement;
- b. has not, within two years prior to the commencement of the audit, had as a member of its audit engagement team the Company’s Chief Executive Officer, Chief Financial Officer, or any member of the Company’s management who act in a financial oversight role;
- c. does not allow the direct compensation of its audit partners for selling non-audit services to the Company.

Provision of other assurance services by the Company’s external auditors

The guidelines that follow are designed to ensure that related assurance and other services provided by the Company’s auditors are not perceived as conflicting with the independent role of the auditor.

The general principles to be applied in assessing the acceptability of related assurance and other services are as follows:

- a. The external auditor should not have any involvement in the production of financial information or preparation of financial statements such that they might be perceived as auditing their own work. This includes the provision of valuation services where such valuation forms an input into audited financial information; it also includes the design or implementation of financial information systems;
- b. The external auditor should not perform any function of management, nor be responsible for making management decisions. This includes responsibility for the performance of internal audit functions;
- c. The external auditor should not be an advocate of the company. This includes being a promoter of the Company’s shares or legal advocacy.

Services permitted to be performed

The Audit and Finance Committee must pre-approve all audit and related assurance services provided by the external auditor, except those for less than \$10,000 total fee, which can be approved by the CEO or Chief Financial Officer and then reported to the Committee at its next meeting.

Audit Services including:

- a. Statutory audits of the financial statements of the company and any subsidiary or affiliate required to be audited for the auditors to render an opinion with respect to the audit of the consolidated financial statements of the company;
- b. Limited reviews of the half year results and financial position of the company;
- c. Consultations with management as part of the annual audit as to the accounting or disclosure treatment of transactions or events and/or the actual or potential impact of final or proposed rules, standards or interpretations by regulatory or standard setting bodies (including International Financial Reporting Standards);
- d. Procedures required to be performed by an independent auditor to be able to form an opinion on the consolidated financial statements;
- e. Engagements on internal controls for financial reporting and information systems reviews, performed in connection with the audit.

Audit-Related Services:

- a. General assistance with understanding auditing standards and applicable regulatory rules;
- b. Any procedures in relation to the annual Shareholders' meeting or any special meeting of shareholders;
- c. Consultations and recommendations in connection with internal control reporting requirements;
- d. Assessment of risk management controls;
- e. Information systems review not performed in connection with the audit and that will not be subject to audit procedures;
- f. Opening balance sheet audits of significant acquisitions which will be accounted for as a purchase transaction in the group financial statements;
- g. To the extent required as part of any restructuring of the company, any audit and/or review of carve out financial statements relating to acquisition or disposals in connection with the audit of the consolidated financial statements of the company;
- h. Assurance services with respect to specific requests or legal requirements such as compliance with banking covenants and/or review of employee and executive bonus entitlements (including agreed upon procedures in relation to banking covenant compliance);
- i. Due diligence review of prospective and other financial information as requested by the Board in connection with a public filing;
- j. Other audit-related services where the general principles outlined above are complied with and there is a clear cost/benefit advantage of using the incumbent audit firm through existing company knowledge and/or expertise.

Other Services. Consistent with the general principles as outlined above these include:

- a. Tax services:
 - i. Assistance with tax compliance assignments (direct and indirect taxation), where indirect taxes include GST, FBT, NRWT and payroll taxes;
 - ii. Review of annual tax returns;
 - iii. Assistance with IRD queries, requests for information, investigations and audits.
- b. Other services where the general principles outlined above are complied with and there is a clear cost/benefit advantage of using the incumbent audit firm through existing company knowledge and/or expertise.

Services not permitted

It is not considered appropriate for the Company's auditors to provide:

- a. Book keeping/other services related to accounting records or financial statements;
- b. The design of financial information systems;
- c. Appraisal/valuation services/opinions as to fairness;
- d. Internal audit services;

- e. Legal services (these are services that could only be provided by a person who is qualified in law);
- f. Consultation with respect to tax structuring for acquisitions, divestitures, and financing arrangements;
- g. Tax planning advice;
- h. Management functions;
- i. Broker/dealer/investment adviser/investment banking services;
- j. Services of an expert as an advocate;
- k. Actuarial services;
- l. Assistance in the recruitment of senior management.
- m. Financial due diligence on prospective acquisitions or transactions that the company undertakes or may consider undertaking.

Billing Arrangements

The billing arrangements for services provided by the Company's external auditors should not include any contingent fees (e.g. where a success fee is paid depending upon whether a transaction proceeds or not).

Other Procedural Requirements

Regardless of the Company's policies, it is expected that the auditors will rigorously comply with their own internal policies on independence and all relevant professional guidance (including independence rules and guidance issues by the NZICA, NZX and ASX and the Securities and Exchange Commission).

While this policy does not prescribe any particular ratio of "other service" fees to audit fees, this ratio will be monitored by the Audit and Finance Committee. Accordingly, the nature of services provided by the Company's auditors and the level of fees incurred should be reported to the Audit and Finance Committee in detail at least annually to enable the Committee to perform its oversight role.

Pre-approval and disclosure of services

All audit related and other services to be performed by the auditors require the specific preapproval of the Audit and Finance Committee.

Services permitted to be performed under this policy involving a total fee of less than \$10,000 can be approved by the Chief Executive or Chief Financial Officer. All such matters relating to approvals by the Chief Executive or Chief Financial Officer are to be reported at the subsequent Audit and Finance Committee meeting.

In providing approval the Audit and Finance Committee should ensure:

- a. The service does not give rise to any self-review or familiarity threat taking into account the safeguards in place.
- b. That all management decision making is retained by the Company.
- c. The service does not involve the auditor being an advocate of the company.

Disclosure

The Audit and Finance Committee should ensure transparency in reporting of all fees paid to the external auditors. As a minimum, fees should be disclosed under three categories of audit services, taxation and other, with further breakdown to be considered based on materiality as determined by the Audit and Finance Committee.

External auditor rotation

The recommendation of the continued appointment of the Company's external auditors is to be recommended annually by the Audit and Finance Committee to the Board prior to the Annual Meeting of Shareholders. A policy of regular rotation of the audit firm is not mandated.

Rotation of the Engagement and Quality Review audit partners of the Company will be required every five years.

Those partners will be subject to a cooling-off period following rotation of no less than two years.

All other audit partners will be required to rotate every seven years and will be subject to a cooling-off period of no less than two years.

Hiring of staff from the external audit firm

The hiring of any former audit partner or audit manager by the Company must first be approved by the Audit and Finance Committee. There are no other restrictions on the hiring of other staff from the audit firm.

Relationship between the external auditor and the Company

The auditors are required to confirm their independence and advise the amount of audit and non-audit fees to the Audit and Finance Committee annually.
